SUMMARY

BSc Computer Science graduate (First Class Honours, University of Liverpool) with 1+ years of professional software engineering and AI engineering experience shipping full-stack and cloud systems. UK Graduate Visa holder; valid right to work in the UK.

LANGUAGES & TECHNOLOGIES

Languages: C#, Java, MySQL, Python, JavaScript, TypeScript, Swift, Dart, HTML/CSS, C, C++

Frameworks/Libraries: .NET, ASP.NET MVC, Entity Framework, React, Flutter, Firebase, Expo

Databases/Cloud: MySQL, AWS (Batch, Lambda, S3)

Tools/Practices: Git, Docker, Agile/Scrum/Kanban, REST & Swagger APIs, SOLID, ACID, Unit Testing, GitHub Copilot, Claude Code, Microsoft Power Apps, Power BI, Xcode, Android Studio, MCP Servers, BLE/IoT Integration, Arduino/ESP32

EXPERIENCE

Web and Cloud Developer

Aug 2026 – Present

Liverpool Air Quality Research Centre

Liverpool, UK

- Building an Expo companion app for newly-developed wearable air quality sensors – BLE pairing, live streaming with packet reassembly, local SQLite/AWS S3 storage, and map/graph dashboards to track and map pollution exposure live
- Integrated AWS Cognito authentication against the department's existing user pool with 75+ users, building account-scoped local data handling and exhaustive, compiler-enforced error handling across every authentication outcome

Associate Software Engineer

Sept 2024 – Sept 2025

Sentric Music

Liverpool, UK

- Built scalable batch and bulk data-manipulation jobs in C#, .NET, Entity Framework and AWS Batch/Lambda, validating and updating over 10 million artist records per run using optimised SQL with CTEs and indexes
- Shipped full-stack features across Sentric's public websites, including search filters, reporting tools and new page rollouts, using C#, .NET, MySQL, JavaScript and HTML/CSS, following MVC architecture and SOLID principles
- Owned end-to-end delivery of technical projects in an Agile/Kanban team from design through production deployment, including a nightly database health-check system and bulk data import tooling used by 150+ internal users
- Integrated GitHub Copilot and Claude into daily development and peer-review workflows, contributing to 100+ PRs

Technology and Data Intern

July 2024 – Sept 2024

Al Futtaim Group – Blue Rewards

Dubai, UAE

- Built a cross-platform Flutter receipt-scanning workflow integrating GPT-4o and Google ML Kit, achieving 95%+ text-recognition accuracy in internal testing, to automate receipt data extraction for the Blue Rewards loyalty app
- Migrated a customer analytics dashboard from Power BI to Microsoft Power Apps, scaling it to serve 2M+ users with insights into behaviour, spending and engagement patterns; designed for and used daily by senior management and marketing teams

PROJECTS

Padelo – Padel Scoring and Social App

Private repo, available on request

Flutter, Dart, Firebase, Claude Code – Building a cross-platform mobile app for padel players to track scores, form social groups, organise tournaments and view detailed statistics, using Claude Code agentic workflows for iterative feature delivery; published for internal use on the Play Store to 20+ testers.

Duelle – Real-Time Multiplayer Number Game

[GitHub](#) | [Live Demo](#)

React 19, TypeScript, Firebase, Vercel – Built and shipped a real-time multiplayer web game where two players race to crack each other's 5-digit codes, implementing live game-state sync, shareable lobby links, anonymous auth and full mobile support.

EDUCATION

University of Liverpool – BSc Computer Science with Software Development

Sept 2022 – June 2026

- Grade: First Class Honours; cohort-highest grade of 99% in the Software Engineering module exam
- Vice-Chancellor International Attainment Scholarship Awardee
- Relevant coursework: Data Structures & Algorithms, Artificial Intelligence, Cloud Computing

Ambassador School – High School Diploma (CISCE)

Apr 2010 – June 2022

- Grade: 98.25% (A*A*A* equivalent) – English, Computer Science, Business, Accounting
- All-UAE Rank 7 overall and Rank 1 among Business Stream students in final-year examinations; School Valedictorian
